

# Modifying a Rule

1. Navigate to the course Control Panel.

2. Click on the **Early Warning System** link located under the **Assessment** header of the right side of the screen. The Early Warning System management screen will be displayed.

3. Click in the box next to the rule that you wish to modify.
4. Next click on the **[Modify]** button. The Rule page will be displayed.
5. Change the rule information then click the **[Submit]** button to save the changes. You will be returned to the Early Warning System summary page.

**Note:** It is also possible to change the availability of a rule by selecting it, along with several other rules if desired, from the list on the Early Warning System page and then clicking **Available** or **Unavailable** from the action bar.
